How to read trade value: This is a league relative comparison score, not projected fantasy points or a universal player price. Higher means more valuable within this league.

- Elite 80+
- High 60–79.9
- Starter 35–59.9
- Depth 0.1–34.9
- Replacement 0 or below

Dynasty values blend long term market ADP with league specific projected production. League size, scoring, starting lineup requirements, positional scarcity, tight end premiums, and your selected team direction influence the result.
